

“Twelfth Conference on Nonlinear Vibrations, Stability, and Dynamics of Structures”
Department of the Army

“Physics-Based Identification and Management of Aeroelastic Limit-Cycle Oscillations,” with M. Hajj, Equilibria

“Nonlinear Energy Exchange Between High-Frequency and Low-Frequency Modes in Composite Structures,” with K. Asfar, National Science Foundation

“US-Tunisia Workshop Research and Educational Advances in Design and Fabrication of Micro- Electro-Mechanical Systems” National Science Foundation

“Application of the Saturation-Based Controller to Self-Excited Oscillators and Systems with Limited Energy Sources,” National Science Foundation

“Combined Cellular Automata Multigrid Methods for structural Topology Design,”
National Science Foundation

“Vortex-Induced Vibration (VIV) Industrial Affiliate Program
